Camo Glass Worm Rattle 5 mm From Camo-Tackle

Camo Glass worm rattle 5 mm Qty 10

Glass rattles can often be the difference between catching and not on hard days.

These glass rattles will add additional attraction to your lure, the clicking sound of the rattle inside the lure is often enough to encourage lethargic predators into striking.

'Vertical fishing - Insert the glass rattle snap vertically so the Jig Of The Lure creates the click when you twitch the lure.

Fishing i.e. casting shads horizontally - Install the glass rattle horizontally so the body roll of the lure creates the click.

Ideal for vertical fishing, casting shads, swimbaits and tube flies.
